

I am opposed to changing the rules to allow for more media consolidation. Allowing for less competition is not beneficial to the people of this country. I would think by allowing more views to be heard we are protecting freedom of speech. To put control of the media in the hands of a few, whether you agree with their viewpoint or not, is not a good move. As a citizen, I should be able to listen to Fox or CBS. The ownership of the airways is not just for a select few to control what is said.
